For whom it may concern,

Enomatic Wine Serving Systems – Eno One

I approached BVC Marketing because we required a machine, which could assist with serving top end wines while extending the shelf life of opened wines.

BVC Marketing helped me by suggesting the Eno One, which resulted in our establishment being able to offer more top end wines available for tasting at the correct temperature, stimulating awareness, and generating sales, while keeping your tasting stock losses to a minimum because of the preservation system.

I found the experience informative, and rather pleasant, purely because our need was addressed promptly, efficiently and effectively.

I would recommend BVC Marketing to individuals who require the same service at their establishment.

Please contact me if you need more info.

Yours faithfully

Steven von Schlicht

Tasting Room Manager
